the directory's primary aim is to provide information about the main collections of history material relating to the north west held in the major public local studies collections archives academic libraries museums and art galleries within north west england the north west is defined as the two old counties of lancashire and cheshire that is before the local government changes of 1974 and the isle of man for each of the major repositories in this area we have provided basic information on address telephone number hours of opening admission regulations and a contact name followed by a concise statement of the main holdings including special collections introduction

the 40bn decent homes programme has had a positive effect on the living conditions of most social housing tenants this report finds but the government has failed to invest enough resources in the parallel programme to improve homes occupied by vulnerable people in the private sector the government must also clarify future funding it is still unclear how the elimination of the remaining backlog of disrepair around 3 per cent of social homes will be funded and how much will be available to maintain standards in the future the government must prevent another backlog of disrepair from building up after the current programme comes to an end in 2010 carbon emissions reduction targets mean that the entire uk housing stock must be made more energy efficient the decent homes standard has an important part to play and should be updated to enable this the use of arm s length management organisations almos to manage council housing has led to improved standards and better planning though not all councils were able to follow this model the decent homes standard remains a low benchmark however the target for decency applied to private housing should be retained and strengthened by creating a national indicator for private sector accommodation a clear long term target should be set at a national level to bring all private sector homes not just those occupied by vulnerable people up to the decent homes standard

this book examines user and community co production of public services and outcomes currently one of the most discussed topics in the field of public management and policy it considers co production in a wide range of public services with particular emphasis on health social care and community safety illustrated through international case studies in many of the chapters this book draws on both quantitative and qualitative empirical research studies on co production and on the governance international database of more than 70 international co production case studies most of which have been republished by the oecd academically rigorous and systematically evidence based the book incorporates many insights which have arisen from the extensive range of research projects and executive training programmes in co production undertaken by the author written in a style which is easy and enjoyable to read the book gives readers both academics and practitioners the opportunity to develop a creative understanding of the essence and implications of co production

big data is now readily available to economic historians thanks to the digitisation of primary sources collaborative research linking different data sets and the publication of databases on the internet key economic indicators such as the consumer price index can be tracked over long periods and qualitative information such as land use can be converted to a quantitative form in order to fully exploit these innovations it is necessary to use sophisticated statistical techniques to reveal the patterns hidden in datasets and this book shows how this can be done a distinguished group of economic historians have teamed up with younger researchers to pilot the application of new techniques to big data topics addressed in this volume include prices and the standard of living money supply credit markets land values and land use transport technological innovation and business networks the research spans the medieval early modern and modern periods research methods include simultaneous equation systems stochastic trends and discrete choice modelling this book is essential reading for doctoral and post doctoral researchers in business economic and social history the case studies will also appeal to historical geographers and applied econometricians
