principles and procedures this time tested book describes the fundamentals of effective interviewing and counseling in speech language pathology and audiology the basic principles and procedures of interviewing and counseling and the specific techniques and suggestions in this book are applicable to children and adults to clients and caregivers and to all settings in which clinicians provide service this third edition has added more than 100 new references 90 of which were published between 2003 and 2004 practical case studies were also added along with examples to help readers with clinical application of the information professionals addressing communicative disorders have long recognized the significance of effective interviewing and counseling in clinical situations yet as many clinicians have lamented for years interviewing and counseling are neglected areas within most educational programs graduates go into workplaces with neither coursework nor effective practicum experiences in interviewing and counseling too often clinicians must learn to interview and counsel on their own on the fly while on the job this is a disservice to clients and is hard on the clinician also such a method of learning does not necessarily mean that the most effective methods of interviewing and counseling are discovered along the way this book addresses those concerns by providing a comprehensive source for effective counseling and interviewing techniques anyone who works with persons with communicative disorders will benefit from this thorough book professionals and students alike will find this resource full of practical pertinent topics it treats a variety of situations clinicians face and describes methods and techniques applicable to students as well as professionals

this textbook for the law student discusses the essential skills of interviewing and counselling clients

master interviewing skills with intentional interviewing and counseling facilitating client development in a multicultural society 8th edition this book gives you the tools to adapt your skills to address both individual and multicultural uniqueness conduct interviews using five different theoretical approaches and begin developing a personalized style and theory of interviewing and counseling that matches your own aptitudes and affinities case studies sample interviews and a portfolio of competencies are just a few of the many tools that will help you master the material and become a better listener

this book offers clear and direct answers to the questions most frequently asked by students and trainees learning how to talk to clients and extract critical data from them its development reflects the old adage that necessity is the mother of invention for many years the editors taught beginning level mental health clinicians they found however no text to be satisfactory including a number that they themselves were involved in producing some were too difficult some were too simplistic some were too doctrinaire still others had missing elements written in a reader friendly how to style the chapters in basic interviewing are not weighed down by references rather each contributor suggests readings for students and instructors who wish to pursue questions further after the initial overview chapter there are 12 chapters addressing the nuts and bolts concerns of all clinicians that can be particularly vexing for neophytes they cover a variety of issues from the most specific like how to begin and end interviews to the more general like how to build rapport and identify targets for treatment throughout rich clinical illustrations facilitate the pragmatic application of fundamental principles beginning graduate students in counseling and clinical psychology social work and other allied mental health fields as well as psychiatric trainees will find this text to be an indispensable companion

filled with examples case studies and exercises this practical resource is designed to help readers become familiar with the full range of interviewing assessment and intervention skills essential to practitioners reflecting many of the changes taking place in the training and delivery of counselling and psychological services in the 90s this revision of the cormiers best seller now includes increased emphasis on multicultural issues and diversity coverage of the transition to managed mental health care through various hmos increased coverage that reflects the trend toward holistic treatment and health care services a chapter on knowing yourself as a counselor that guides readers toward self awareness and coverage of client process and outcome evaluation skills necessary for mastering today s treatment planning guidelines

this book specifically designed to meet the needs of those teaching and learning interviewing and diagnostic skills in clinical counseling and school psychology counselor education and other programs preparing mental health professionals offers a

rich array of practical hands on class and workshop tested role playing and didactic exercises the authors who bring to their task a combined 31 years of practice and 24 years of teaching these skills present 20 complex profiles of a broad range of clients adults teens and children differing in ethnicity gender religion socioeconomic status presenting problems and problem severity the profiles provide students trainees with a wealth of information about each client s feelings thoughts actions and relationship patterns on which to draw as they proceed through the different phases of the intake initial interview one playing the client and one the interviewer each client profile is followed by exercises which can also be assigned to students not participating in role playing who have simply read the profile the profiles are detailed enough to support a focus on whatever interviewing skills an instructor particularly values however the exercises highlight attending asking open and closed questions engaging in reflective listening responding to nonverbal behavior making empathetic comments summarizing redirecting supportively confronting and commenting on process the authors approach to dsm iv diagnoses encourages students to develop their diagnostic choices from axis i to axis v and then thoughtfully review them in reverse order from axis v to axis i to ensure that the impacts of individual situational and biological factors are all accurately reflected in the final diagnoses throughout the authors emphasize the importance of understanding diversity and respecting the client s perceptions and of reflecting on the ways in which the interviewer s own identity influences both the process of interviewing and that of diagnosis interviewing and diagnostic exercises for clinical and counseling skills building will be welcomed as a invaluable new resource by instructors students and trainees alike

essentials of intentional interviewing 3rd edition delivers a more concise and reader friendly version of the iveys bestselling intentional interviewing and counseling one in which every sentence and concept has been reviewed to ensure both relevance and clarity for beginning helpers the book s multicultural focus reflects the diverse nature of today s classroom and society the third edition retains the authors renowned microskills model which revolutionized modern understanding of the counseling and therapy process by teaching students vital interviewing skills step by step this demystifying process breaks down counseling into manageable micro units and builds a bridge between theoretical understanding mastery of the skills and the practice of counseling new to this edition are a chapter on crisis counseling basic information on neuroscience as it relates to interviewing brief summaries of key theories of helping and revised practice exercises important notice media content referenced within the product description or the product text may not be available in the ebook version

now a little over a century old the field of psychotherapy finds itself in a strange position we possess a rich body of theories and a lengthy list of empirically supported treatments that have demonstrated their efficacy at reducing human suffering however our theories and our treatments still fall short research finds that about one third of adult patients who enter

treatment in a randomized controlled trial either do not benefit or worsen and patients in naturalistic settings particularly children fare even worse lambert 2013 moreover patients can only benefit from therapy if they are in it as many as 20 of patients drop out of therapy prematurely swift greenberg 2015

the purpose of this book is to help law students to develop and practice communication skills in the context of client interviewing and counselling

this book supports and develops the communication and interviewing skills of professional practitioners and student practitioners in social work counselling and the health professions combining work on personal and social constructs the search for meaning and ecological theory this book both provides an integrated discussion of practice and presents a balanced approach when discussing psychological biological and social influences on individual well being furthermore it emphasises the influence of social contexts on behaviour and well being as well as valuing and encouraging the application of practitioners prior experience and learning apel to new knowledge and understanding containing a range of practice examples to stimulate learning this book promotes a collaboration between the professions and welcomes the contributions of people who use services patients and clients communication and interviewing skills for practice in social work counselling and the health professions will be of interest to all undergraduate and postgraduate social work students as well as new and experienced professional health care practitioners

in today s world lawyers tend to become identified more with law and less with people the public interest social welfare and the common good however many lawyers are sensitive people oriented professionals who relate to their clients as persons and not as problems the authors argue that counseling is the heart and soul of lawyering and that it is an integral part of the legal education

this highly practical guide for both experienced and novice professionals and students reveals the steps involved in the crucial first meeting with a client the authors approach the task of an initial interview by providing an overview of the therapeutic process and what to expect from clients the book also explores the practical basics of therapy counsellor client roles physical settings communication dynamics assessment and diagnosis record keeping goals and contracts and trust building individual chapters discuss specialist topics such as working with couples and families the role of culture and ethnicity when and how to refer clients with serious problems and legal and ethical issues
