using variants of a modified version of dornbusch's model of price level and exchange rate dynamics it is demonstrated that satisfaction of the formal condition for existence of a unique non explosive solution of a linear rational expectations model with forward and backward looking

dynamic processes equality of the number of stable roots with the number of independent backward looking processes does not guarantee the economic sensibility of this solution even if one accepts the usual arguments for excluding speculative babbles from the solutions of such models moreover satisfaction of the formal condition for existence of an infinity of non explosive solutions for such rational expectations models more stable roots than independent backward looking processes does not assure that any of these solutions is economically sensible

this book offers a concise introduction to the field of financial economics and presents for the first time recent behavioral finance research findings that help us to understand many puzzles in traditional finance tailor made for master s and phd students it includes tests and exercises that enable students to keep track of their progress parts of the book can also be used at the bachelor level
